Anna Biszaha, Research & Education Librarian, Health Sciences Library

Hello! My name is Anna Biszaha, and I am a Research & Education Librarian at the Health Sciences Library. I provide reference, instruction and research support services and also serve as the liaison librarian to both the College of Dentistry and the School of Health and Rehabilitation Sciences. You can find my profile page here: https://hsl.osu.edu/directory/anna-biszaha

In addition to general research support, I also provide support to researchers around the NIH Data Management & Sharing Policy, including providing DMS Plan reviews and consultations to discuss a variety of questions that may come up in the DMS Plan writing process.

Sandy Shew, Research Computing Facilitation, College of Arts and Sciences

Hi, I'm Sandy Shew and I'm the director of Research Computing Facilitation in the College of Arts and Sciences Technology Services group (more concisely, ASCTech, or our new name, ASC IRIS).

Our group helps connect College researchers with the IT-related resources they need. Among other things, we support users of the College's HPC cluster, help researchers find appropriate storage options and move data efficiently, work securely, and comply with funding agency and other regulations.
